Dear Colleague,

Early childhood special education professionals continue to indicate an interest in information about children who are prenatally exposed to substances. Because of this interest, this information packet has been updated from a packet first developed in 1993. It is designed to provide you with information and resource guides for further reference.

Gathering this information was a collaborative effort of many individuals. Also, at first glance some of these materials may seem dated, but we did not find more recent information that was as neatly formatted with basic, straight forward information. We hope you will find that this packet contains helpful information. After you have examined the packet, please complete the enclosed evaluation and return it to us at the address provided on the form or complete the evaluation online at <https://www.surveymonkey.com/s/BLH9CRR>. Thank you for your interest and your effort toward the education of young children.

Sincerely,

David P. Lindeman, Ph.D.

KITS Director

Serving Children Prenatally Exposed to Substances Evaluation

This packet has been developed as a resource about serving children prenatally exposed to substances. The contents were chosen based on your requests and needs assessment information completed previously. We would like you to evaluate how helpful this packet has been for you. Please tell us what you found most useful, what was not useful, and what material might have been helpful that was not included.

Please check the parts of the packet that you found most helpful. In the space provided briefly tell us how or why each part was helpful to you.

Articles Assumptions/Myths Resource Lists/References

Please identify why each part you checked was helpful: _____

Please check the parts of the packet that you found were not helpful to you. Then in the space provided, briefly tell us how or why each part was of little use to you.

Articles Assumptions/Myths Resource Lists/References

Please identify what about this part(s) made it of little use:

Please tell us what was not available in the packet that would have been helpful to you:

Please describe how you plan to use the information in this packet:

Other comments or suggestions for future packets:

Thank you for completing this form and returning it to us!
