## **Purpose of Curriculum-Based Assessment Packet**

This packet's purpose is to give its readers' information about curriculum-based assessments. The materials in this packet have come from a variety of sources addressing the need for information about curriculum-based assessments and their use with preschoolers. It is important to the Kansas Inservice Training System (KITS) that we produce materials that are timely and easy to understand. We acknowledge, however, that the articles in this packet emphasize the use and implementation of curriculum-based assessments and are not the articles most recently published (please see reference list for additional articles). We hope what we did find will give you a better understanding of curriculum-based assessments and their use in your program. Our packet includes a definition of curriculum-based assessment, an overview of choosing a curriculum-based assessment and information related to specific curriculum-based assessment measures. Additional references and resources complete the packet. Thank you for your interest in our project.
